# EVERY CITY

**must have a Directory not only to give the names and addresses of its citizens, but also to give the character of progressiveness that would record the names of its people for historical purposes. Every one has forefathers, these forefathers have made the history of this country. Some day you will be the forefather and your descendants can visualize your life's work more quickly through registration in the City Directory of your time than in any other way. The BIOGRAPHICAL HISTORY OF THE MASSES IS CONTAINED IN THE CITY DIRECTORY AND IN NO OTHER PLACE, which stamps its importance to the family. To make your history watch your Directory registration, to see that it accurately records your position in life from year to year. In this year 1944 there are estimated to be over 11,000 citizens of Cambridge serving in the armed forces of the United States. These names are in this Directory with branch of service indicated—truly a real historical volume.**

# CAMBRIDGE

## he University City, the Home City, Industrial and Transportation Center, Merchandising and Financial Center

ompiled by H. A. Manning Company, with Assistance of Cambridge Chamber of Commerce

The publishers of this Directory consider it advisable and desirable to set forth the follow- g paragraphs, in as simple and attractive a manner as possible, to enable the readers of these escriptive pages to comprehend as many of the outstanding features of Cambridge as limited ace permits. The local resident, the visitor, and the distant reader about Cambridge wishes gain an impression of Cambridge as well as to have at hand a statistical reference regarding e city and its people. It is the publisher's aim to portray as much of Cambridge's charm and reatness as is consistent with facts. We believe with John Cotton Dana, the great librarian, at "Good citizenship springs from a knowledge about one's own community." The teach- gs of the City Map and the City Directory about localities, districts, street locations, street anges, growth of sections, and general city changes are of great importance to property wners, old residents, new residents, and school students. Racial characteristics of names in e Directory enable the consultant to gain a very comprehensive knowledge of the inhabitants the city and many other educational facts. Notable men all through history have contri- uted their philosophy on the value of knowledge about the "home town." Here is one om Abraham Lincoln: "I like to see a man proud of the place in which he lives. I like to e a man live so that his place will be proud of him." In studying the following, remember at the Cambridge City Directory disseminates this information far and wide where this irectory represents Cambridge in the Free Directory Library Exchange System of North merica. The Cambridge City Directory, with over 1,000 closely printed pages, is the City of ambridge in book form; its family and social life, business and industrial life, is portrayed in eat detail. The publishers invite and accept constructive criticism and suggestions for the nprovement of the Directory for the benefit of Cambridge and all interested.

**LOCATION**—Cambridge is known world-wide as "The University City." It is, however, uch more than an educational city. It has 500 industries and is a great warehousing center for merchandise. It is one of the leading transportation centers of this section of the country. Cambridge is very near to the center of the Metropolitan District of Massachusetts and is bound on the South by the Charles River and Brighton Section of Boston; the West by Watertown and Belmont; on the North and East by Arlington, Somerville and Charlestown. The distance is 4 miles from the center of the Boston business district to the Central Square district of Cambridge. Distances to important points in Eastern United States are as follows: Portland 104 miles, Concord 72, Hartford 110, Providence 42, Worcester 40, New Bedford 65, Lowell 32, Bangor 246, Springfield 93, Greenfield 98, Burlington 277, Albany 179, Schenectady 194, New York 220, Philadelphia 310, Atlantic City 356, Washington 451, Buffalo 467, White Mountains 160, Elmira 368, Cape Cod 70, r Harbor 271, Montreal 320, Chicago 1025, Boston Harbor 5.

A.D. 1846

**POPULATION**—The Sixteenth U. S. Census (1940) shows the population of Cambridge be 110,879. The trend of population since 1790 is as follows: 1790, 2,115; 1800, 2,453; 10, 2,523; 1820, 3,295; 1830, 6,072; 1840, 8,409; 1850, 15,215; 1860, 26,060; 1870, 39,634; 80, 52,669; 1890, 70,028; 1900, 91,886; 1910, 104,839; 1920, 109,694; 1930, 113,643. The al colored population at present is 5,419. American born population 78%. Predominating tionalities of foreign born residents are English, Scotch, Irish, Italian, Portugese, Polish, ench Canadian descent. The total white population is currently estimated at 111,000; na- e 78,000; foreign born 33,000. Number of families, 27,448. Dwellings, 15,014. Population family, 4.05. Population per dwelling, 7.41. Population within 25 miles, 3,000,000; 45 les, 4,300,000.

**TOPOGRAPHY**—Much of Cambridge lies North of the Charles River Basin which it rders for 4 miles. This Basin has been greatly improved and beautified with parkways ng its shores adding distinction and charm to the city. The city occupies 6.535 square

miles and is 4¾ miles East and West and 2 1/5 miles North and South. The maximu
altitude above sea level is 77 feet. There is scarcely a foot of land in Cambridge that cannot
developed for city use. There are many fine residence streets with beautiful homes a
apartment buildings and, in Cambridge, homes can be found to fit all pocketbooks. There a
many fine streets traversing the city and many great arteries of travel pass through Cambridg

VIEW OF HARVARD SQUARE SECTION OF CAMBRIDGE NORTHWARD

**HISTORICAL**—Cambridge was settled in 1630. It was incorporated a city in 184
original shire town of Middlesex County, and houses the County Offices of Administratio
There is much of interest to the lover of history in Cambridge, which calls to mind some ver
by Oliver Wendell Holmes:

"Know Old Cambridge? Hope you do.
Born there? Don't say so! I was too.
The nicest place that ever was seen,
Colleges red and Common green,
Sidewalks brownish with trees between."

It might prove worth while to translate this into Modern Cambridge logic, thus:

"Know NEW Cambridge? Hope you do.
In business there? I am too!
The busiest place you ever have known!
Industry, business, and commerce have grown,
Modern Cambridge, we're proud of you."

In between the periods that represent the above verses is an intensely interesting transition
a good old New England town, with its college atmosphere built around Harvard University
300 years ago, to a modern great city with its 41 private educational institutions, over 5
industries and 1500 merchandising outlets. It can properly be said that the history of Can
bridge should begin at the Old Burying Ground at Harvard Square. Visualizing from th
point the small beginnings of this city is easy if one has the time. There are many historic
markers in Cambridge of which we can only mention a few for lack of space:—

1. Fort Washington, foot of Allston Street near Charles River.
2. Site of Fort No. 1 where Riverside Press now stands on Blackstone Street.
3. Site of Fort No. 2 on left hand side of Putnam Avenue below Franklin Street, buil
1775 by order of George Washington.
4. Site of Inman House, Inman Street near City Hall. General Putnam had head
quarters in 1775 in house which stood here.
5. Apthorpe House, Bishop Place, between Plympton and Linden Streets, built in 176
General Burgoyne and staff officers confined here as prisoners of war in 1777.
6. Site of first school house in Cambridge, Holyoke St, first school house built in 164
7. Site of Governor Dudley House, Northwest corner Dunster and South Streets. Th
founder of Cambridge and Governor of Massachusetts lived here in 1630.
8. John Hicks House, Southeast cor Dunster and Winthrop St, built 1762. Hicks wa
killed by British soldiers Apr 9, 1775 and the house was used as Army office by General Putna
9. Site of first meeting house in Cambridge, Southwest corner Dunster and Mt. Aubur
Streets. Erected 1632.

10. Site of Spreading Chestnut Tree, Brattle near Story Street where village smithy tood, made famous in Longfellow's poem.

11. Washington Elm, Garden corner Mason Street. Washington took command merican Army under this tree July 3, 1775.

12. Cambridge Common where centers much of the early history of this section. Cannon narker for guns used by Continental Army in siege of Boston during American Revolution.

There are hundreds of other markers and historic spots most of which are recorded by the ambridge Historical Society.

As Cambridge took a leading place in the making of history in the early days of America it s so doing today at an accelerated pace. In the summer and fall of 1936 Harvard University eld its Tercentenary Celebration, entertaining visitors from all over the world. Visitors to ambridge of a quarter century ago would hardly recognize it today because of its modernizaion in streets, boulevards, parks, buildings and mode of transportation. In some ways it tands first among New England's cities and combining all its advantages it can be said to rank mong the leading cities of this section of the country.

**INDUSTRIAL**—Industry has not superseded education in Cambridge. It is still a Uniersity City to a greater extent than ever before. Industry has, however, replaced education s the most prominent characteristic of the city. Industry is not new to Cambridge. The nly thing new is its tremendous growth, and its position among New England cities as the hird in industry. Industry in Cambridge is almost as old as education. Here the first printing ress in the colonies operated, he birth of the great pub-shing industry of America as here; the first center isle passenger coach was roduced here. Great glassare factories employed 500 s early as 1850. Modern ansportation and the eclamation of 2 square iles of tide-covered low-nds in the city are two ictors that have had much p do with the growth of idustrial Cambridge. The ansition to an industrial ity began in the 1870's hen the reclaiming of the owlands began. Owing to Vorld War II definite figures n industry are mostly esti-iates, the following are sub-antially correct: over 500 stablishments employing 30, 00, with annual wages paid of $28,000,000, with products annually of $160,000,000 for 1943. stands first in the country as a confectionery center, and prominent in manufacture of ap, bread and other bakery products, printing, publishing, rubber goods, rubber boots, shoes, ectrical machinery, apparatus and supplies, foundry machine shop products; furniture. so producing dictionaries, transformers, radio apparatus, oil burners, radio sets and many her products among which are as follows:

WITH A GRAND TOTAL OF SEVENTY CHURCHES representing all of the leading denominations, Cambridge could properly be called a

## City of Churches

These noble edifices placed at intervals about the city add much to its attractiveness and charm.

It is the belief of many Cambridge citizens of vision that this full and adequate supply of churches is one of the greatest of the many resources of our city.

That for newcomers it is a factor that makes for the ready assimilation into the religious and social life of the community and hastens the time required to make citizens of the strangers who come to us.

The Church of today is the greatest of all institutions for the planting of good thoughts in the minds of the people and stands as the bulwark against the degrading influences that surround us.

Therefore, let us give a thought to these institutions that form so great a part of our city life and in visualizing our future greatness, let us remember their value as

# SOCIAL SERVICE IN CAMBRIDGE

That Cambridge has a "social conscience" is ably attested to by the well-balanced and thoughtfully integrated health and social service program maintained by its voluntary and tax supported agencies and institutions for health, welfare and recreation. The Council of Social Agencies, the planning body for this group, was organized for "the co-ordination of all welfare services for the betterment of conditions in Cambridge."

The city's oldest voluntary agency dates back to the early '70's, and its newest was established in July, 1943, thus demonstrating that the program is not static--that Cambridge is alert to current demands and to the needs of its people, whatever may be the nature or duration of those needs.

Twenty voluntary agencies alone operate on an annual budget in excess of $1,000,000, of which more than twenty percent is contributed through the community chest, locally known as The Cambridge Community Federation, and affiliated with the Greater Boston Community Fund.

## "OUR MUNICIPAL LEADERS"

Mayor, JOHN H. CORCORAN

City Manager, JOHN B. ATKINSON

# CAMBRIDGE

Long known as the University City, might well be called the Candy City, Soap City, or the Industrial City. It is ideally situated on the bank of the historically famous Charles River which tends to enhance its beauty and to serve its many industries. Cambridge is located across the river from Boston and is bordered by Arlington, Belmont, Somerville, and Watertown. Schools and Colleges, stores and warehouses, churches and convents, homes and apartment houses, all contribute their share in making Cambridge a delightful place to live and a desirable place for business or industry.

Beginning in January 1942 Cambridge has been under a new type of government. This is the Council-Manager type, sometimes called "The Plan E Government". This form of municipal administration calls for the election of nine Councillors by the proportional representation method and the selection by these Councillors, once elected of one of their members to be Mayor. The Councillors, then elect the Manager, who serves until removed by the Council.

In two years $6.40 has been cut from the tax rate and the City for the first time in 50 years has not borrowed any money, but has paid off 31% of its bonded debt. Services to the citizens have been increased and new apparatus purchased as well as a complete reclassifying of all municipal employees and the standardization of salaries with annual increments. Municipal buildings have been repaired and renovated and office space for various departments enlarged. Obsolete methods of procedure have been modernized and made efficient in their function of serving the public. By a planned system of planting and supervision parks have been beautified and flower beds have replaced weeds and gravel. A new sense of civic pride in keeping Cambridge clean is gradually gaining results and home owners and residents vie with each other in the appearance of their lawns and street. Cambridge has 10 fire stations equipped with the best and most modern equipment and has an adequate and well trained police department. The City maintains its own Water Department and has a water supply capacity of 4,326,000,000 gallons with a daily average of 12,002,241 gallons and 152 miles of water mains. There are 179 miles of sewer pipes throughout the City.

Cambridge has nine hospitals which offer 1200 beds to the community for the treatment of the sick. The city has seven theatres with a seating capacity of 6200 for the entertainment of the public. There are four weekly newspapers and a Cambridge page in one Metropolitan Daily. Within the City there are 218 associations, societies, and fraternal organizations which offer an opportunity to the citizen who is interested in the various religious, civic and fraternal movements.

The City offers excellent banking facilities to the industrialist, the business man, the home owner and the citizens. There are fifteen banks located in Cambridge, five of which are commercial, six are savings and four are co-operative banks with total assets of $158,549,000. The assessed valuation of property is $157,480,300 on real estate and $12,428,500 on personal property with a tax rate of $39.90 which is $6.40 less than in 1941.

Cambridge today the third ranking city in New England in industry began its industrial importance with the Stephen Daye press and the first book published in the colonies. Thus hand in hand with education it has progressed forward until today its products are known throughout the world. Many of these industries are engaged in full time war production and have received 14 Army and Navy "E" awards and several citations for excellence in production. "Cambridge is an outstanding example of diversification in industry, and offers all the advantages that such diversification brings." Millions of dollars worth of products such as soap, bread and bakery products, candy, rubber goods, therapeutic supplies and equipment, furniture, books, paper boxes, sheet metal products, shoes and shoe findings, plumbers' supplies, window and door screens, weather strips, beverages and planing mill products are produced and manufactured in Cambridge. This is by no means a complete list nor is it an account of all the most important products, it serves only to show the wide divergence of industries.

Cambridge has four major retail centres. Several miles of store fronts line Massachusetts Avenue and Cambridge Street with the principal shopping centres located in Inman Square, Central Square, Harvard Square and Porter Square. Because of very good bus, trolley and bway service Harvard Square and Central Square are two of the largest retail centres in the Metropolitan system.

The spiritual life of the City is well cared for through the 70 churches. These edifices are well distributed serving the entire city. There are 12 Roman Catholic, 10

Baptist, 9 Episcopal, 9 Methodist Episcopal; 4 Congregational; 3 Presbyterian; 2 Nazarene; 2 Lutheran; 3 Hebrew; 2 Greek Orthodox; 2 Swedenborgian; 2 Unitarian; 1 Swedish Evangelical; 1 Spiritualist; 1 Universalist; 1 Armenian Universalist and 5 miscellaneous churches. The Y. M. C. A. and the Y. W. C. A. are both well housed and are very active. There are 13 religious homes or convents as well as 7 homes or asylums.

There are 24 public schools in Cambridge including 2 high schools. There are 10 parochial schools in Cambridge including a girls' high school and a co-ed high school. Value of the public school property is over five million dollars and of the parochial school property over three hundred thousand dollars. Harvard University, one of the oldest and best known institutions in North America, is located here. It was named after John Harvard who, in the early days of its founding, was one of its greatest benefactors. Registration has run well over 8000 and the college alone has had as many as 3500 students. The faculty has had as many as 1800 serving on it. At present the facilities of this great institution are contributing to the training and education of officers in both the army and navy. The Harvard yard is the scene of men in khaki and men marching to class and performing military maneuvers.

Radcliffe college also located in Cambridge is doing its share in training young women for naval duty. The WAVES have taken over a portion of this campus and are being prepared to take their place on active duty. Massachusetts Institute of Technology located on the Charles River has a beautiful setting and has contributed much to the world. Over 3000 students attend this great institution and receive instruction from a faculty of over 500 of the finest scientific body in the world. Its great laboratories are today aiding in the war effort and many army and navy units receive their instruction here. The Sargent School of Boston University is situated in Cambridge and adds to the great array of higher educational institutions found in Cambridge. In all there are over 40 schools, colleges or academies in Cambridge which gives to the City the title of the foremost educational center in America.

Cambridge has ten parks, not including Metropolitan parkways. Also there are many playgrounds under excellent supervision. Within a radius of sixty miles there are over one hundred schools to offer competition to the high school athletic teams and Harvard University brings on some of the best college teams in the country. By railroad, bus and highway Cambridge has easy access to the New England "Playground of the Nation," as well as the many fine beaches along the seacoast. The City also has three excellent beaches.

Two divisions of the Boston and Maine Railroad serve the City and through interconnecting tracks both the

Boston and Albany and New Haven Railroad systems bring a very important freight service to Cambridge. A great majority of Cambridge firms have railroad tracks right at their door. The Boston and Albany Railroad have over ten miles of industrial sidings in Cambridge giving service to two hundred industries. The Boston and Albany has a large Cambridge Freight House equipped with modern machinery for handling all kinds of freight. The Boston and Maine Railroad has a large classification yard in Cambridge capable of handling over two million cars a year. These yards are ringed about by terminals which are capable of meeting all traffic needs. The City is also the headquarters of many large fleets of trucks and offering all types of trucking service including door to door pick up and refrigerator trucking. Easy access to main highways and freedom from traffic congestion is in no small way responsible for this. U. S. routes 1 and 3 and Mass. State routes 2 and 28 offer through routes for rapid traffic to all points of the compass as well as easy access to mountain, lake, shore, and country.

Cambridge, on the Charles River, was at one time a port of prominence and even today coal, coke, oil, gasoline, sand and lumber arrive in large quantities by boat through the locks of the Charles River Dam. Shipping lanes of the Atlantic are easily accessible to Cambridge. The East Boston Airport is only a few minutes travel and offers a global air service after the war.

Cambridge traces its history to the very roots of the founding of this country for it was in 1630 just ten years after the Pilgrim Fathers landed on Plymouth Rock that Cambridge was settled. Two hundred and sixteen years later it was incorporated as a City. Washington assumed command of the Continental Army in Cambridge and lived here. Troops which fought at Bunker Hill were quartered in Cambridge and it was Cambridge men who fought the British in their March to Concord in 1775. Several historic spots are marked and a book Historic Spots in Cambridge is an excellent guide to visitors. (Space does not permit an exhaustive list of historical markers therefore refer you to page 20 in Directory).

The City borders on the Charles River for four miles which frontage consists mostly of a parkway with a wide highway throughout its length. Cambridge has an area of about 6.5 square miles and is unusually level with main arteries intersected by pleasant shaded streets. The one major elevation is Observatory Hill, home of the Harvard University Observatory, which is in the North Central section of the City.

The figures of the 1940 census list 110,879 residents in Cambridge of which 78% are native born Americans. Over 12,000 of Cambridge's sons and daughters are in the service of the country. The larger racial groups represented in the population are English, Irish, Canadians, Italians, rench, Portugese and Lithuanians.

# It's Smart to Live in Cambridge

TWO years ago our Home Betterment Committee placed in various banks and offices signs bearing theslogan "It's Smart to Live inCambridge." Many persons who viewed these signs put their tongues in their cheeks and shook their heads, believing the Chamber had "gone off the deep end."

Early in 1942, when the Municipal Affairs Committee placed full-page ads in newspapers and sent to Chamber members special bulletins, stating that Cambridge could have a $40.00 tax rate by 1943, these same skeptics said "wishful thinking." It was not wishful thinking. It was a profound faith in Cambridge and in the effect a business administration would have on our city. A thoroughbred horse can lose a race with a poor ride—he can win just as easily with a fair ride. Cambridge is a "thoroughbred" city, and for the past two years has had much better than a fair ride by the majority of those persons in charge of its affairs. We have crossed the line a "winner" with the announcing of a $39.90 tax rate. A reduction of $4.00 in this year's rate—and a total reduction of $6.40 over the 1941 rate—is a record of which we are indeed proud. Congratulations and thanks to City Manager Atkinson, Mayor Corcoran and the Councilors who have made this possible. This was accomplished despite a school budget of $1,871,444.89, an increase of $45,000 over the 1942 budget.

In addition to decreasing the budget almost a million dollars since 1941, the sum of $620,000.00 has been used to adjust pay increases for the City employees. If this sum was not used for this purpose it could have resulted in an additional tax reduction of approximately $3.90. In addition, our cost of operating the Pension has increased considerably in the past few years.

Last year the City paid off $1,600,000 in bonded debt, and this year it expects to pay off $1,485,000 in bonded debt. This, in itself, reduces the cost of interest approximately 25%. Thus, Cambridge has reduced its total indebtedness 31% in two years, and for the first time in over half a century is operating on a strictly cash basis, as no long-term borrowing was authorized by the City Council in 1942 nor is any anticipated for 1943. This compares favorably with the average borrowing over the period of 5 years preceding 1942 of $1,676,000 per year. As a matter of fact, during 1940 and 1941 the sum of $2,997,000 was borrowed, of which $675,000 was borrowed in 1941 to hold down the tax rate.

We have repaid during 1942 and 1943 $270,000 of this $675,000 without any refundings.

In addition to this, during the past 16 months the Surplus Account of the City has been increased by approximately $340,000.

One of the most important contributions made towards the increase of income to the City has been the collection of old debts and taxes which have been owed the City over a long period of time and had been regarded largely as uncollectible. Chamber Director and City Treasurer, Arthur G. MacKenzie, has done an excellent job.

Other contributing factors are lower State and County taxes. These are offset, however, in great measure by decreased incomes from the State, as this year the City will not receive $250,000 of gasoline tax money which it received last year. The actual receipts from Highway Fund, Income Tax and Corporation Tax in 1942 from the State were $1,432,532.65, whereas the estimated income from these same sources this year is $912,876.71, a decrease of $429,655.94. Against this, however, we have a decrease in the County Tax of $21,396.95, in the State Tax of $277,300, in the Elevated Deficiency of $108,985, a total of $407,681.95. While we have $429,655.94 less income from the State this year, we have $407,681.95 less expense in these, the principal items.

We will "go out on a limb" again and state, "If Cambridge can continue to have the same type of administration a $35.00 tax rate is possible."

A new spirit exists in the City and among the City employees, which comes from cleanliness. Our streets and gutters are clean, our municipal buildings have been cleaned and painted, the trucks used for collecting refuse are painted and bear the slogan "Help Keep Cambridge Clean". Flowers have been planted and bloom in squares and other spots in the city and greet the visitor.

The quality of water in our city is nationally known —as is the record low rate.

Our Civilian Defense organization ranks among the best in the country, and we lead cities of our size in the number of Army-Navy "E" Awards.

We can be proud of Cambridge, and there is every reason why every citizen should say "It's Smart to Live in Cambridge."

---

# Keep Cambridge Clean

KEEP CAMBRIDGE CLEAN
HELP KEEP CAMBRIDGE CLEAN
KEEP CAMBRIDGE C

THE WHITE FLEET

MANY improvements, not apparent to the general public, have been made in Cambridge during the past two years. Some of our residents have not seen City Hall or the Municipal Building since they have been completely cleaned and redecorated. A few persons have visited City Hall Annex, corner Harvard and Inman Streets. This building is no longer a dilapidated school but a valuable piece of city property.

No one in the city has failed to realize that there is a movement on the part of city officials to make Cambridge a "clean " city. The Cambridge edition of the Boston American, the Cambridge Chronicle-Sun, and the Cambridge Sentinel have done their share to make the public conscious that they also have a responsibility in making Cambridge a "clean" city. City trucks are being painted white and new equipment has been added (see picture). This work will continue until all trucks have been so equipped as units of the White Fleet.

Visitors to our fair city have commented most favorably on seeing these trucks on our streets. This is the kind of advertising we want.

Let's do our share and "Help Keep Cambridge Clean."

---

*Reprint from "Magazine of Cambridge" issued by Cambridge Chamber of Commerce.*

# HIGHLIGHTS

1. Tax reduction of $2.40.
2. No long term borrowing.
3. Repayment of $1,600,000.00 debt without refunding
4. Renovation of Raymond St. stables, Harvard School.
5. Purchase of snow removal equipment.
6. Establishment of Maintenance Crew.
7. Establishment of new police signal system.
8. Centralization of Police Department.
9. Rebuilding one wing of Cambridge Sanatorium.
10. Reclassification of city employees with pay increases.
11. Erection of greenhouse; planting of flower gardens.
12. Inauguration KEEP CAMBRIDGE CLEAN program.
13. Increasing water supply 5,000,000 gallons daily without expense.
14. Reopening of Metropolitan bath house.
15. Installation of Auxiliary Fire Dept. equipment.
16. Purchase of new trucks, compressors, etc. for Water and Sewer Departments.
17. Purchase of new catch basin cleaner for Sewer Dept.
18. Abolition of truck hire; using our trucks to capacity.
19. Reduction of $856,972.53 in Budget, and including Schools $917,021.22.
20. Purchase of additional land for Cemetery.
21. Repainting buildings by Maintenance Crew.
22. Sale of tax anticipation certificates to Cambridge banks.

## Recommendations for the Future

1. Abolition of grade crossings.
2. Revision of City Ordinances.
3. New two-way police and fire radio.
4. Erection of suitable war memorial.
5. Construction of branch library at Observatory Hill.
6. Establishment of a central motor repair shop.
7. Construction of additional buildings, City Hospital.

19. Repainting of all city buildings.
20. Establishment of Public Works Department.
21. A steadily decreasing tax rate.

# CAMBRIDGE STATISTICS

## Polls, Personal Property and Real Estate Valuation Tax Rate

Valuation of taxable property since 1939:

| Year | Polls | Personal Property | Real Estate | Total | Tax Rate |
|---|---|---|---|---|---|
| 1939 | 35,004 | $11,063,800 | $16,0805,900 | $171,869,700 | $40.50 |
| 1940 | 34,793 | 10,678,800 | 159,924,500 | 170,603,600 | 43.00 |
| 1941 | 33,288 | 10,248,400 | 158,471,200 | 168,719,600 | 46.30 |
| 1942 | 35,017 | 13,696,400 | 157,639,800 | 171.336,200 | 43.90 |

The following statistics annually prepared by the Assessors are a means of comparing the contemplated expenditures and the estimated revenue which are the bases of the tax rate for 1941, 1942 and 1943.

| *Appropriations* | *1941* | *1942* | *1943* |
|---|---|---|---|
| City | $ 7,665,143.97 | $ 6,836,181.77 | $6,754,507.31 |
| School | 1,886,789.93 | 1,826,741.24 | 1,871,444.89 |
| County | 260,337.51 | 220,362.42 | 197,271.43 |
| Water | | | *451,069.18 |
| State Tax and Assessments | 919,600.95 | 832,023.02 | 444,025.19 |
| Judgments | 28,010.33 | | 377.60 |
| Deficit in Overlay | 91,135.09 | 233,241.18 | 58,617.69 |
| Overlay | 121,416.81 | 244,153.41 | 108,016.62 |
| Total | $10,972,434.59 | $10,192,703.04 | $9,885,329.91 |
| Less Polls and est. Receipts | $ 3,160,717.11 | $ 2,671,043.86 | $3,105,968.79 |
| Tax Levy | 7,811,717.48 | 7,521,659.18 | 6,779,361.22 |
| Tax Rate | 46.30 | 43.90 | 39.90 |
| ***Receipts*** | | | |
| State Income Tax | 554,629.62 | 487,333.46 | 513,118.32 |
| Corporation Tax | 412,651.83 | 416,380.24 | 399,757.39 |
| Authorized by Comm. | | 174,828.37 | 190,000.00 |
| Departmental | 1,200,000.00 | 1,265,895.70 | 1,418,800.00 |
| Over Estimates | 878.62 | 5,591.05 | 135.81 |
| Loan | 675,000.00 | | |
| Gas Tax | 250,981.04 | 250,981.04 | |
| Water Department | | | *506,926.86 |
| Meal Tax | | | 12,322.41 |
| Total | $ 3,094,141.11 | $ 2,601,009.86 | $3,036,060.79 |
| Polls | 66,576.00 | 70,034.00 | 69,908.00 |
| Grand Total Receipts | $ 3,160,717.11 | $ 2,671,043.86 | $3,105,968.79 |

# HARVARD SQUARE BUSINESS MEN'S ASSOCIATION, INC.

Organized 1910

## OBJECT

To advance the commercial, industrial, and public interests of Harvard Square in the City of Cambridge. To promote a commercial exchange to accumulate for its members business information, to adjust controversies and misunderstandings. To establish and maintain uniformity in commercial transactions, and promote just and equitable principles of trade.

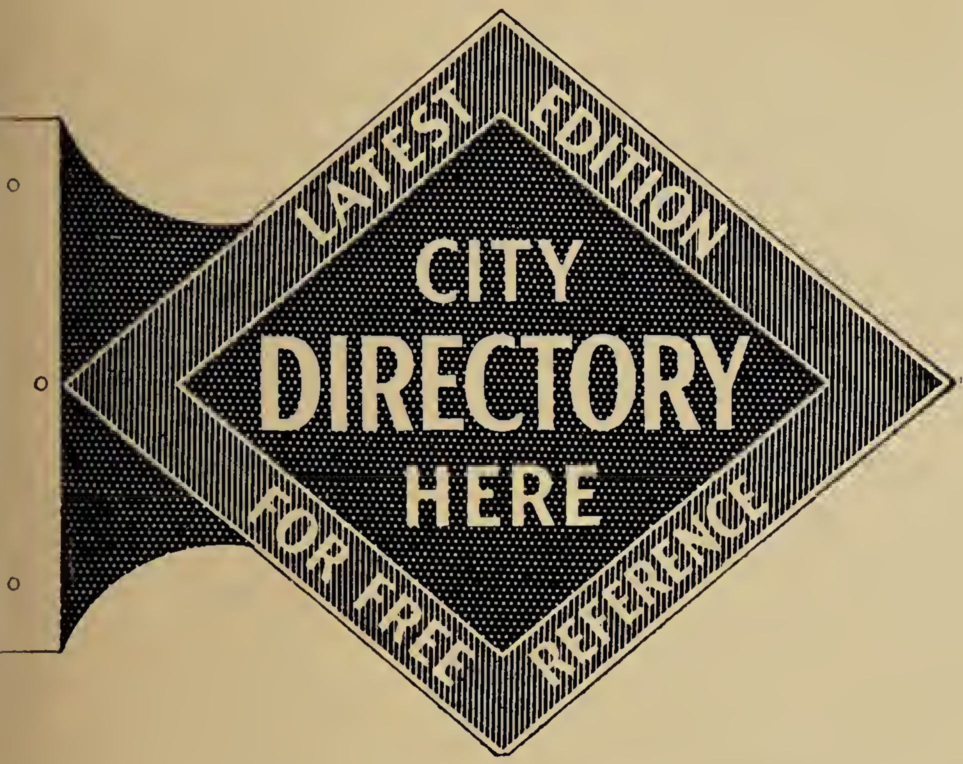
# *This is the Sign of the Progressive Merchant*



Who Appreciates Your Patronage by Letting You Use His City Directory.

Who Shows His Desire That You Learn the Efficiency That Frequent Use Will Give to You.

Every City must have a Directory not only to give the names and addresses of its citizens, but also to give that character of progressiveness that would record the names of its people for historical purposes. Every one has forefathers, these forefathers have made the history of this country; some day you will be the forefather and your descendants can visualize your life's work quicker through the registration in the Directory of your time than in any other way. The BIOGRAPHICAL HISTORY OF THE MASSES IS CONTAINED IN THE CITY DIRECTORY AND NO OTHER PLACE. That stamps its importance to the family. To make your history, watch your directory registration to see that it accurately records your position in life from year to year.

THE CIRCULATION OF THE CITY DIRECTORY EXTENDS TO EVERY CITIZEN OF THE CITY. The Information Bureaus of the City are for FREE public use and your merchant, banker, physician, dentist, hotel and restaurant and garage man expect that the masses of the people shall without hesitation ask for a look at the City Directory.

# *Industrial Cambridge*

**Industry in Cambridge is almost as old as education. Here the first printing press in the Colonies started, and the birth of the great publishing industry was here. The first center aisle passenger coach was produced here. Great glass-ware factories employed 500 as early as 1850.**

RAILROADS SERVE INDUSTRY IN CAMBRIDGE

As an industrial center Cambridge is in the pioneer class. At the very beginning of the settlement of the Colonies industry settled along the Charles River to take advantage of water transportation facilities. Here the first printing press in the Colonies started, and the birth of the great publishing industry was here. The first center aisle passenger coach was produced here. Great glass-ware factories employed 500 as early as 1850.

As Cambridge took a leading place in the making of history in the early days of America it is so doing today at an accelerated pace, and today its industrial greatness is not to be denied. Cambridge ranks third in industry among the cities of New England.

The rapid advance of Cambridge industrially came with improvement in transportation, and the reclamation of two square miles of tide covered low lands in the city. These two factors have had much to do with the growth of industrial Cambridge. The transition to an Industrial City began in 1870, when the reclaiming of the low lands began. There are now nearly 500 manufacturing concerns employing nearly 22,000 workers, and having as annual wage disbursement of nearly $00,000,000. The products amount to $185,000,000 per annum. Cambridge stands first in the country as a confectionery center, and very prominent in the manufacture of soap bread, and other bakery products, printing and publishing, rubber goods, rubber boots and shoes, electrical machinery, apparatus and supplies, foundry and machine shop products, furniture, dictionaries, transformers and radio apparatus, oil burners and over 500 other products which are too numerous to be mentioned in this limited space. For further details on products see page 11.

Cambridge offers great advantages to industrialists. It has everything to work with in labor market, transportation and facilities. There is a customer market of 30 million within 500 miles. Water transportation will deliver Cambridge-made products to Pacific coast and Mississippi river points at a lower rate than land transportation of 500 miles.

For further information about Industrial Cambridge write the Cambridge Industrial Association, or the Publishers of this Directory.

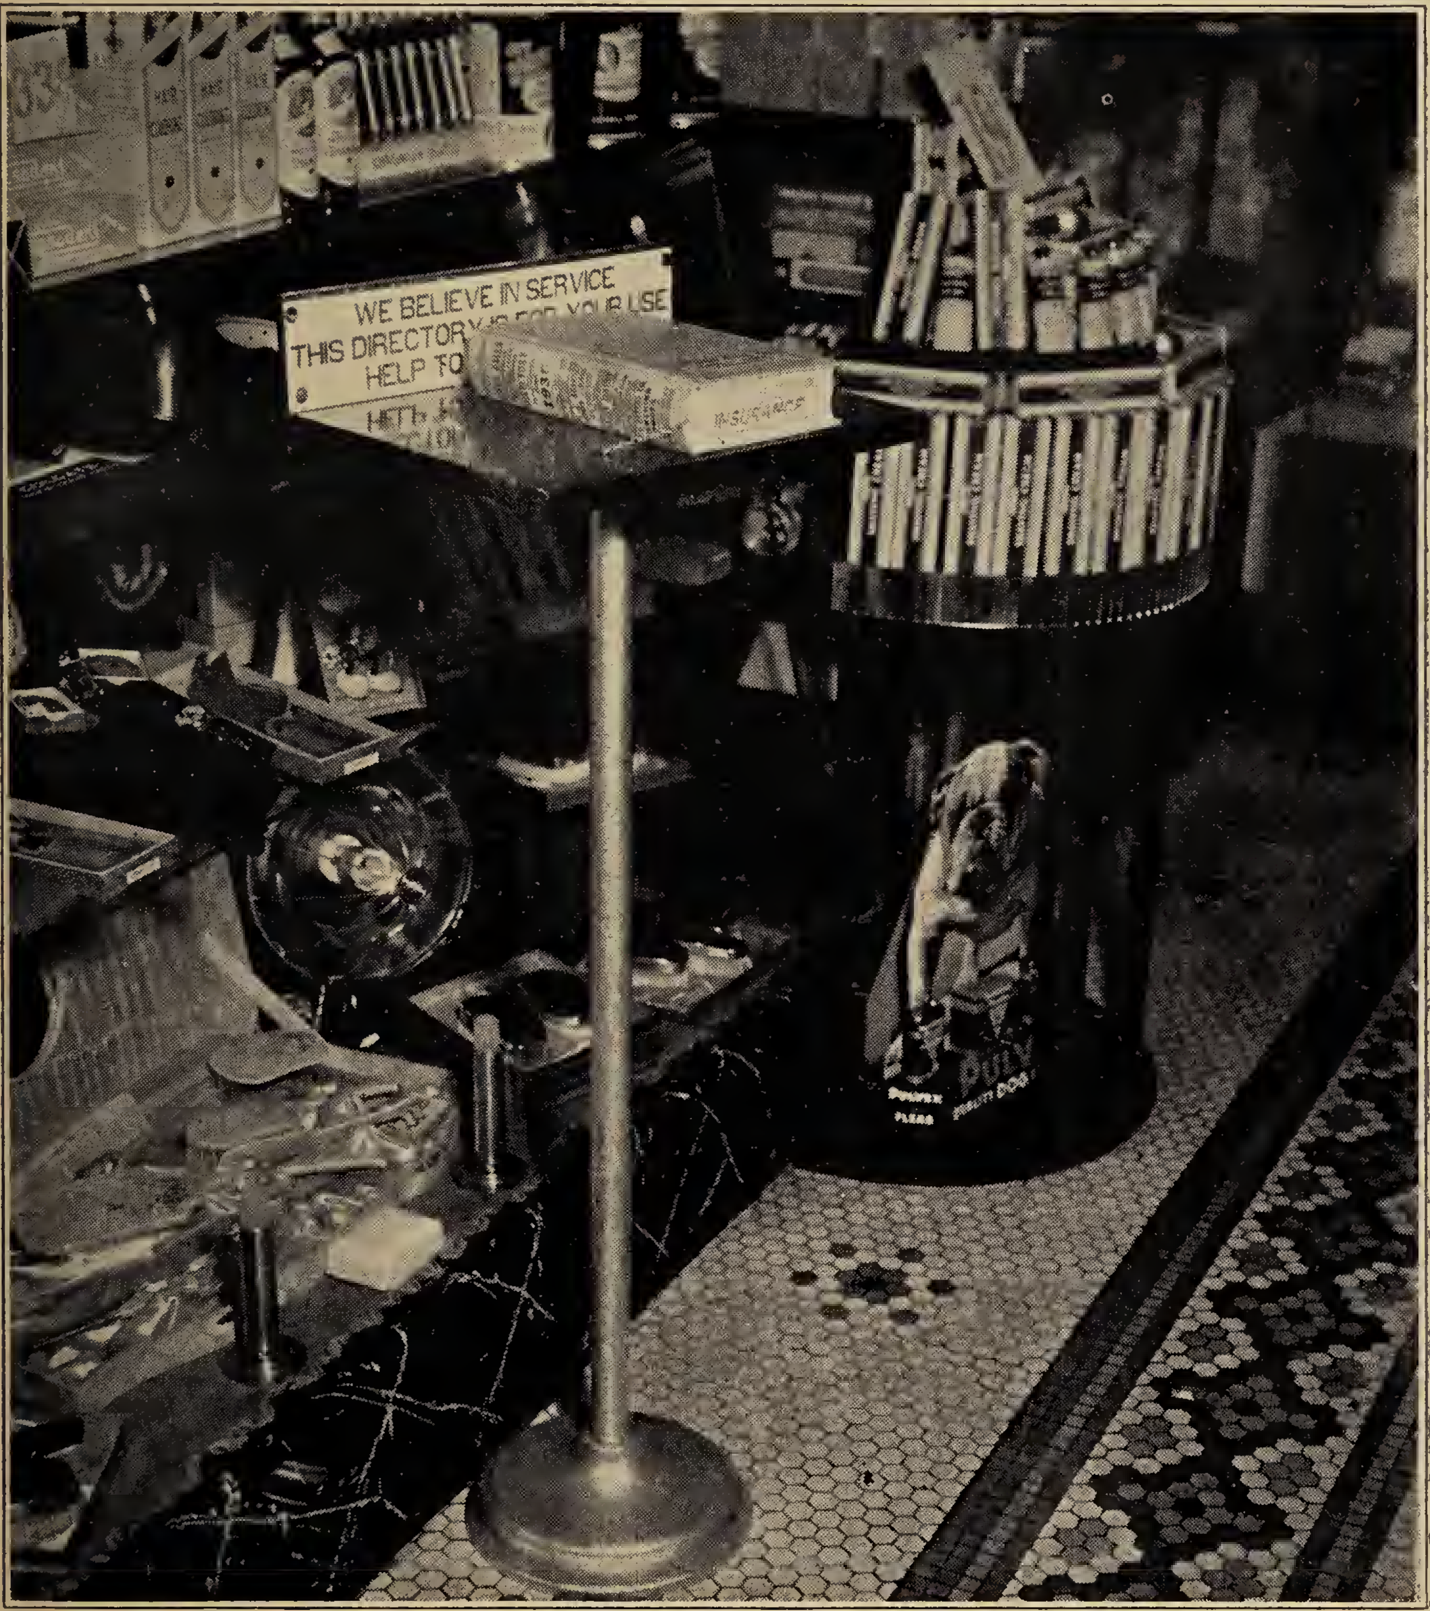
# Directory Floor Stand

For Retail Establishments where there are congested conditions in Drug and other stores.

"MODERNISTIC"

Directory Fastened to Stand by Two Chains Attached to Rings Through Top of Cover

Extra Placards of Bristol Board Furnished for Frequent Changing



The purpose of this stand is to save the merchant's time in handing out the Directory and watching it to see that it is not stolen, and to provide an exposed position where the public can use it without asking any questions.

The stand is made with a very heavy metal base so that it cannot be easily upset The metal tube screws into the base, and into a socket made to fit underneath the wooden shelf. The metal parts of the stand are finished with aluminum bronze. The wooden part of the stand is made especially for this purpose, and is finished with mahogany stain, and is attractive.

*1908 — A Heritage of Craftsmanship — 1943*

FOR 35 years we have carried on the heritage of fine New England Craftsmanship in producing reproductions of Georgian Furniture.

Our Beacon Hill Collection, inspired by the beautifully designed furniture found in the homes of Boston Citizens on Beacon Hill is nationally known and is sold throughout our country's finest stores.

A visit to the Galleries of our factory will be an inspiration to you.

We firmly believe that living with this furniture of lasting beauty leads to a finer and happier living.
